

Deltona

proud to be a part of it

The City of Deltona's Building Services Department received an application for a 7,800-square foot cardiovascular surgical center to be located behind Deltona Fire Station 65 on Dr. Martin Luther King Boulevard. Also under review is a Murphy's Gas Station to be located at 105 Howland Blvd.

Proposed projects in Planning & Development Services include several apartment projects: Deltona Village (414 units); Conway (eight units); Eloah (326 units), and Las Palmas (22 units). There are also several single-family development projects being proposed: Enterprise Osteen West (189 units); Three Island Lake South (59 units); Lakeside Landing (130 units); Osprey Estates (206 units); Fernanda Place Phase Three (167 units). Approved projects in Planning & Development Services, meaning the developer has an approved preliminary plat or a final site plan in record, include the Enrico Ridge (105 units) and Thalita Terrace (18 units) apartment developments. The following single-family development projects have also been approved: Lake Gleason Reserve (52 units); Courtland Park (196 units); Vineland Reserve Phases II and III (279 units); Hampton Oaks (259 units), and Fernanda Place (243 units).

Is your home located in a flood plain? Staff from the City of Deltona's Public Works Department are available to help residents explore the causes of repetitive flooding on their property, what the City is doing about it, what protection might be needed or other protection alternatives. Please call (386) 878-8950 for more information. Information on preparing for a flood, and permanent flood protection measures are available from RedCross.org, FEMA.gov and Ready.Gov/floods. The City of Deltona's Building Department may have information on financial assistance and programs that administer flood protection rebates for low floodwalls, overhead sewers, sewer backup valves and utility relocations. Residents who are interested in elevating your building above the flood level may qualify for a federal grant to cover 75 percent of the cost. Homeowner's insurance policies do not cover damage from floods. Residents may want to consider a flood insurance policy. Because Deltona participates in the National Flood Insurance Program, residents may purchase a separate flood insurance policy, backed by the Federal government. Because our community participates in the Community Rating System, resident will receive a reduction in their premiums. If your area is not mapped as a Special Flood Hazard Area, you may qualify for a lower-cost Preferred Risk Policy.

The emergence of COVID-19 and the associated health and economic consequences of this global pandemic, has prompted the City's Office of Economic Development to concentrate on Business Retention and Business Information Assistance. The City of Deltona's Small Business Volusia Relaunch Grant Program and the In-Home Business Assistance Program processed 63 home-based business applications for \$94,500 and 95 Relaunch (brick and mortar) Business Grant applications for \$287,000. That's a total of 158 applications for \$381,500.
